

Shop Shelves Foldable Shelf

You are welcomed to come to our factory to buy the latest selling, low price, and high-quality Jennifer's Shop Shelves Foldable Shelf. The Muscle Rack heavy-duty 4-shelf steel shelving unit with its patented Z-Beam design and attractive silver vein finish is the perfect storage solution for organizing bulky items in your basement, workshop, garage, business or anywhere you need heavy-duty vertical

storage.

The Muscle Rack heavy-duty 4-shelf steel shelving unit with its patented Z-Beam design and attractive silver vein finish is the perfect storage solution for organizing bulky items in your basement, workshop, garage, business or anywhere you need heavy-duty vertical storage. Its sturdy frame has a powder coat finish that resists abrasion, chipping and corrosion for lasting strength and durability. This versatile shelving unit can store a variety of items, large or small, with the convenience of shelves that are adjustable every 1.5 inches. Heavy items are no problem; each sturdy particleboard shelf holds up to 200kg evenly distributed weight. The rack's modular design allows the unit to be assembled vertically as a single shelving unit or horizontally for a 2-piece workbench style unit. The rack's bottles design and included post couplers allow you to assemble it in just minutes with no nuts or bolts.

JENNIFER'S MFG.LTD.,HAIYA Shop Shelves Foldable

Shelf Feature and Application:

Shop Shelves Foldable Shelf is made of steel and wood. Steel is used to make the framework of the product, so that the product has stability. The wood is used to fill the center of each frame, and then we apply moisture-resistant paint to make sure the product doesn't go bad. This greatly saves costs and makes the overall product more harmonious and aesthetically pleasing.
